For your information:

- This guideline is meant to inform, not direct treatment decisions.
- Prior authorization is not required for emergent, urgent, or stabilization care.
- SCAN only uses prior authorization for one or more the following purposes:
 - To confirm the presence of diagnoses or other medical criteria that are the basis for coverage determinations for the specific item or service
 - For basic benefits, to ensure an item or service is medically necessary based on established standards
 - For supplemental benefits, to ensure that the furnishing of a service or benefit is clinically appropriate
- If you receive an approval for a service or supply, it is for that service or supply ONLY.
- Services that do not require preauthorization are still subject to the coverage terms of the member's plan
- SCAN reviews this prior authorization list not less than annually. Updates are typically made throughout the year as deemed necessary. Services on the prior authorization list may change at SCAN's discretion.
- Codes newly added to the list will be in **bold red** font with an *.
