End-stage renal disease/dialysis services Services for the treatment of end-stage renal disease (ESRD) require advance notification –includes outpatient dialysis services	Advance notification is required if a plan member is referred to an out-of-network provider for dialysis services. The purpose of steering to an in-network dialysis center is to avoid high cost-shares for plan members, even when they may have out-of-network benefits. Advance notification/prior authorization is not required for ESRD when a UnitedHealthcare Medicare Advantage plan member travels. Note: Your agreement with us may include restrictions on referring plan members outside of the UnitedHealthcare network.	To enroll or refer a UnitedHealthcare Medicare Advantage plan member to the Optum Kidney Resource Service, please call 866-561-7518 .
